Christmas Decorations

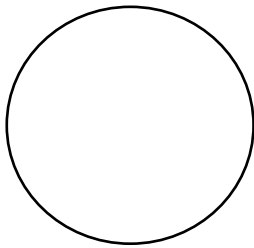

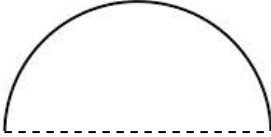

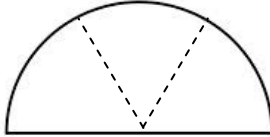

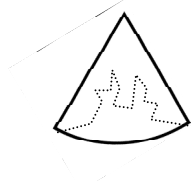

Colour in the pictures on these nets. Cut them out and stick them together to make a cube and a pyramid. Put a string through the circle. Hang them on your Christmas Tree.

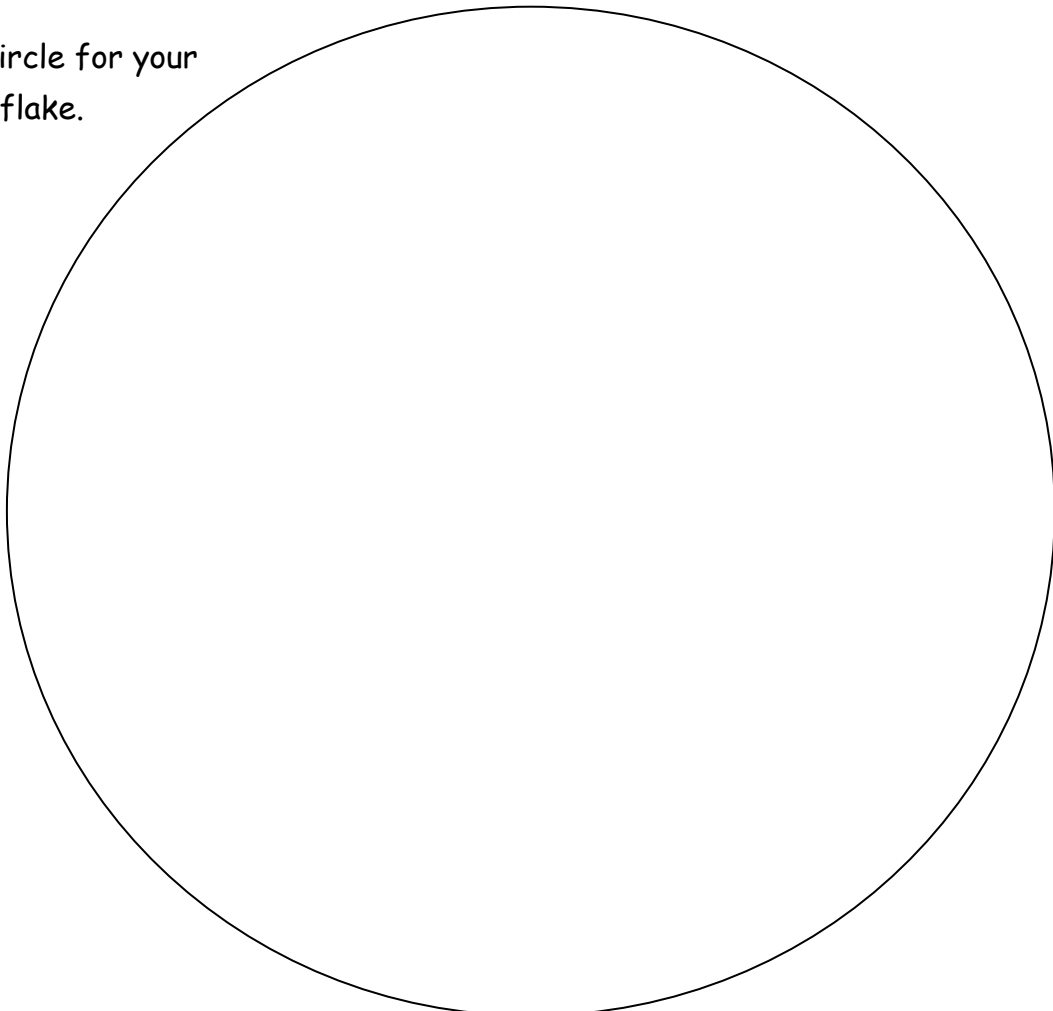

Making Snowflakes

Make your own symmetrical paper snowflakes. All you need is paper and scissors.

How to make paper snowflakes

 <p>1. Cut a circle out of your paper.</p>	 <p>2. Fold your circle in half.</p>	 <p>3. Fold the half circle twice again.</p>
 <p>4. Draw a pattern along the open end.</p>	 <p>5. Cut out your pattern.</p>	 <p>6. Open up to reveal your snowflake.</p>

Use this circle for your first snowflake.

Christmas Symmetry

Draw the other half of these pictures to make them symmetrical (the same on both sides)
